> Army - Law Enforcement

### **How It Works**

#### In short, Xerify uses BNB Chain as an immutable, fast, secure decentralized ledger to provide a trusted record of your files

#### NOTICE

No files are stored by **Xerify**, only the secured representative of your file (the hash) is stored on the blockchain.

Only a secure representative (hash) of your document is used to create the trusted record on the **BNB Chain.** Your original files are not transferred and remain confidential.

#### IMPORTANT

Always store your X-Stamped file(s) to be able to claim its true origin if needed.

### What Is Blockchain

A Blockchain is a decentralized digital ledger that securely records transaction data across many specialized computers on the network. Blockchain ensures data integrity through its immutable nature via cryptography and consensus mechanisms, meaning once information is recorded, it cannot be altered retroactively.

**BNB Chain's mission is to build the** infrastructure powering the world's parallel virtual ecosystem, and BNB Chain's commitment to the community is that it will be:

- 100 tps
- Blocktime ~ 3sec
- Open
- For creators and inventors
- Permissionless
- Forever decentralized
- Bigger than and separate from Binance Exchange

## The XRFY Utility Token

# **XRFY** tokens are the keys to access and use the Xerify Platform

# What is the cost to X-Stamp a file

To proceed with a X-Stamp you will need:

# Total cost **~\$0.48**

- **Price on June 20th 2023**
- There is no cost to X-Verify a file or a hash.

# **500 XRFY = ~ \$0.45** + BNB gas fees (\$0.03)

### How to Buy XRFY
